MENTAL WELLNESS CAMPUS

World-Class Inpatient Mental Health Treatment

The new **Children's Mercy + Camber Mental Health Mental Wellness Campus** is a 72-bed inpatient hospital offering short-term intensive treatment for children and teens experiencing a psychiatric emergency.

The mental wellness campus is a healing environment for those experiencing severe depression, anxiety, suicidal thoughts, the impacts of trauma, and other mental health conditions. Beautiful spaces center on patient safety, wellness, and connection with nature including private courtyards, walking paths, and dining and activity space.

Our goal is to help patients stabilize and return home as soon as safely possible, equipped with the skills, support, and resources they need to continue treatment in their community.

How to Access Care

Our admissions team is here to connect with you **24 hours a day, seven days a week**. Please call us at **(913) 890-7468**. Inpatient hospitalization includes:

- ▶ Full medical, clinical, and nursing assessment
- ▶ Intensive psychiatric care and medication management
- ▶ Individual, family, and group therapy sessions
- ▶ Case coordination
- ▶ 24/7 Support and supervision from our skilled nursing staff
- ▶ Innovative treatment and education on neuroscience and emotions

About the Partners

Our region's leading providers of children's healthcare and inpatient mental health treatment are proud to partner to meet urgent needs in our community. Children's Mercy, a leading independent children's health organization, and Camber Mental Health, a national leader in delivering specialized mental and behavioral healthcare, are the two trusted brands behind this hospital. Camber's trauma-informed, neuroscience-driven inpatient mental health treatment model, combined with Children's Mercy's world-class pediatric care, research, and community engagement, will elevate mental health and community health outcomes for decades to come. Learn more about our partnership and generous supporters online.
